Housing by ARC, Inc. provides Community Residential Alternative and Respite Services. Currently there are no vacancies in CRA; however we are always looking to fill Respite slots.

**Community Residential Alternative:**

Community Residential Alternatives are available to individuals who require intense levels of residential support in small group settings of four or fewer or in host home/life-sharing arrangements. Services include a range of interventions that focus on training and support in one or more of the following areas: eating and drinking, toileting, personal grooming and health care, dressing, communication, interpersonal relationships, mobility, home management and use of leisure time.

**Respite:**

Respite Services provide brief periods of support or relief for individuals with disabilities or their caregivers and include maintenance respite for planned or scheduled relief or emergency/crisis respite for a brief period of support for participants experiencing crisis (usually behavioral) or in instances of family emergency.

Cordially,

Jodie Wren, Program Director
